

MAY TRAINING COURSE

BALANCING TRAINING

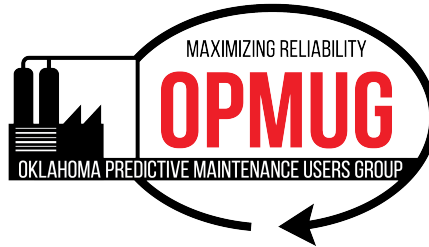

with Evans Enterprises

May 30 - June 1

7:30 am - 4:30 pm

Deadline to Register: May 23

Evans Enterprises
6707 North Interstate Dr.
Norman, OK 73069

In Partnership With

TRAINING OVERVIEW

This course is intended to cover the basic principles and practices associated with balancing rotating assemblies in the shop and the field. A review of basic vibration concepts and analysis is included. In addition to balancing, advanced testing methods are discussed to determine conditions that can prevent achieving satisfactory balancing results. These procedures include impact and ramp-up/coast-down tests with case studies.

TOPICS TO BE COVERED

- Review of vibration principles
- Basic vibration analysis
- Balancing concepts
- Single plane balancing process
- Balancing pitfalls
- Two plane balancing process
- Balancing standards
- Shop balancing
- Benefits of good balance

PRICE

\$500 for OPMUG members
