

JUNE TRAINING COURSE

MACHINERY LUBRICATION I

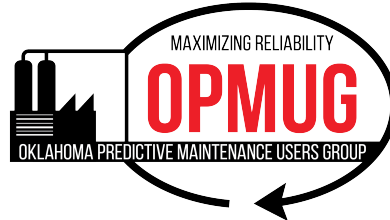

with optional ICML Certification Testing

June 20-22

8:00 am - 4:30 pm

Deadline to Register: May 26

Autry Technology Center
Main Campus, Room 204
1201 W. Willow Rd. Enid, OK

In Partnership With

REGISTER AT OPMUG.ORG

TRAINING OVERVIEW

This course provides the essentials of proper lubricant application while instilling proven industry methods for selecting, storing, filtering, and testing lubricants for improved machine reliability. With this course, individuals will move beyond the dated methods of vague, non-specific lubrication procedures to understand what to do and why there is a right way to do it.

LEARNING OUTCOMES

Gain essential understanding for maintenance, lubricant selection, and filtration:

- How lubrication affects machine reliability
- Lubrication fundamentals
- Additives, base oils, and grease thickeners
- Lubricant performance properties
- Grease application methods
- Oil application methods
- Journal bearing lubricants
- Rolling-element bearing lubricants
- Gear lubricants
- Auto and mobile equipment drive-line lubricants
- Compressor lubricants
- Steam and gas turbine lubricants
- Hydraulic fluids

REGISTRATION

Registration will be limited to the first 25 OPMUG members.

For more information about classes or lodging, please contact:

Jesse Ashlock | (580) 242-2750 | jashlock@autrytech.edu.

PRICE

\$1685 for OPMUG members + \$325 for ML1 Certification Test

Attendees can take the ML1 certification exam at Autry on June 22.

Registration for the certification is required - **[ICML Exam Registration](#)**.
